UNIQUE, NON-INVASIVE REPAIR PROCESS

Paintless Dent Repair (PDR) is a unique and innovative process that works without the need for body fillers, sanding or painting. PDR technicians use specialized tools to gently manipulate dented metal back to its original form, repairing door dings and minor dents up to 4" in diameter in vertical and horizontal painted metal panels.

Repairs are made without affecting the factory finish.

DENTGUARD MAKES IT EASY

- Unlimited claims during the contract period
- \$0 deductible for qualified repairs
- Convenient, hassle-free claims process
- Nationwide dispatch service
- Transferable to next owner

Take care of dents before they appear!

PLUS! HAIL DAMAGE COVERAGE AT NO ADDITIONAL COST

Should you experience a hail event resulting in damage to your vehicle's exterior, DentGuard provides an added benefit offering reimbursement of your auto insurance deductible. Pre-approval is required.

See agreement for details.

Signifies Covered Panels

Excludes roof panels with sunroof or moonroof

What is NOT Covered: Paintless Dent Repair does not include dents larger than 4" in diameter, pre-existing damage, collision or environmental damage, broken paint or sharp creases, chrome or unpainted portions of the vehicle, chips, cracks or paint damage, dents where access is restricted due to bracing, double metal panels or other structural limitations, roof panels with a sunroof, moonroof or convertible hardtop, surfaces with matte paint finish, or a film or wrap application.

See contract for details.
